##### Credit hour policy

The draft Credit Hour policy was introduced to the committee for consideration by Dr. Bressette. He asked the Council to consider the proposal in light of graduate education. Since Academic Council has not yet approved the final language, he recommended that the council wait until Academic council has approved final language. He asked the council to read the language carefully and make sure it will work for the graduate program, particularly the percentages that qualify courses as various types.

Richardson commented that the content of the course is not dependent upon the course delivery mode.

Dr. Kurz commented that these this new policy should be reflected in any advertising that is done for the program. Dr. Kurz asked when the final policy might be approved by the Academic Council. Dean Grout commented that final approval in the Academic Council had been delayed pending some minor changes in language relating to the differences in between content delivery and time-in-class.
